## What's the Scoop?

For the first time, the Greater Watertown Jaycees are happy to introduce The Scoop, a monthly bulletin. It is our way of keeping members updated on what is going on in the community.

If you or your organization have an event that you would like to promote; or news/accomplishments like promotions or announcements that you would like to share with fellow Jaycees please email Michelle Capone at [mcapone@danc.org](mailto:mcapone@danc.org).

## Otis Technology to Expand-Again

Congratulations to Doreen Garrett for announcing in January another major expansion to her facilities in Lyons Falls. Doreen founded Otis Technology at age 16 and has grown it to a multi-million dollar global business. Otis makes gun cleaning kits used by the military and sportsmen.

Doreen Garret was the kick-off speaker at Emerge NNY

Doreen recently announced she was adding 24,000 square feet to her recently completed 43,000 square foot manufacturing facility. Much of this space will accommodate a state-of-the-art warehouse. The project will create approximately 15 jobs. Way to go!

(BTW-Doreen received our inaugural YP Award for Business in 2007)

## EMERGE NNY

Emerge NNY is a summit for Young Professionals held annually by the Greater Watertown Jaycees. Planning will begin in March for the 2008 event at JCC. Anyone interested in joining the planning committee contact Michelle at [mcapone@danc.org](mailto:mcapone@danc.org).

## What you Missed at the GMM

On Feb. 5 the Jaycees were hosted by Lisa Weber and her staff at Timeless Frames. Andrea, Nicole and Angela gave us an excellent tour of the company's custom-framing division. It's a great facility and asset to the North Country.
